3. **Best Secondary School Team - Hong Kong**
4. **Best Prototype**

Apart from 'Awards of Merit' all other prizes consist of 1st, 2nd, 3rd & 4th places

Why should students compete?

As we move into an ever-growing online world, students will find themselves in a job market where AI and blockchain will be impacting the socio-economic order across the world. HKBCOL & HKDSOL offers not only a strong foundation for these pathways but also valuable experience in critical thinking and problem solving.

Participating will expand your knowledge and skill arsenal, which will benefit your university applications and open more job opportunities. Top universities and companies favour well-rounded students with competition experience, such as the olympiads.

How to Register

Please nominate your school to compete in the Olympiads before registering teams, these can be filled out electronically and emailed or by traditional post.

You may also choose to fill out via our google form instead (found below).
